

I listen to K-LOVE on 88.9 in Oklahoma City, and I am concerned with your proposal to make LPFM stations have priority over FM stations. K-LOVE in Oklahoma City is a very popular station with many, many listeners who might not have an alternative station if this proposal goes into effect. K-LOVE is a Christian music station that many people (not necessarily just Christians) turn to when going through a rough time. I personally like listening to the Christian music played by K-LOVE because it keeps me focused on God and my effort to please God. Even people who are not Christians and who don't intend to become a Christian wish everyone would have the morals and values of Christians so this station is important to everyone. I don't understand all the technical aspects of this proposal, but I do know that it is important to me and to the community of Oklahoma City to have such an uplifting and solid station such as K-LOVE. Thank you.
